EXAMINER: **Unassigned**

Attorney Docket No: **PCL-02-045**

RECEIVED

JAN 15 2004

Technology Center 2600

**Declaration of Paul Munro
Under 37 C.F.R. § 1.48(a)**

1. I hereby declare that all statements made herein of my own knowledge are true and all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and such willful false statements may jeopardize the validity of the application referenced above or any patent issued thereon.

2. In or about July 2003, I was informed that the above referenced application was submitted to the U.S. Patent and Trademark Office, naming Michael E. Wilmer as the sole inventor. Shortly thereafter, I had an opportunity to review the subject application.

3. In or about August 2003, I forwarded copies of the initial design summary and e-mail transmissions by and between Mike Wilmer and myself relating to the network topography scheme claimed in the above reference application to John Murray in preparation for his scheduled meeting with Counsel for PEMSTAR Pacific Consultants.

4. On or about August 19, 2003, I discussed my contributions toward the claimed methods and apparatus with Counsel for PPC. During the discussion, Counsel concluded that my contributions warranted being added as a named inventor.

5. The error in inventorship was thus inadvertent and, hence, occurred without deceptive intention on my part.

Executed this 17th day of December, 2003 at Mountain View, California.

A handwritten signature in cursive script, appearing to read "P. L. Munro", is written over a horizontal line.
